Product features

01 SINGLE USE

This is a disposable tourniquet, designed to be easy to use and capable of effectively preventing infections caused by repeated use.

02 COMFORTABLE

Uses materials that do not pinch the skin making it suitable for sensitive skin too. Can be readjusted to sit comfortably onto the patients arm.

03 VERSATLE

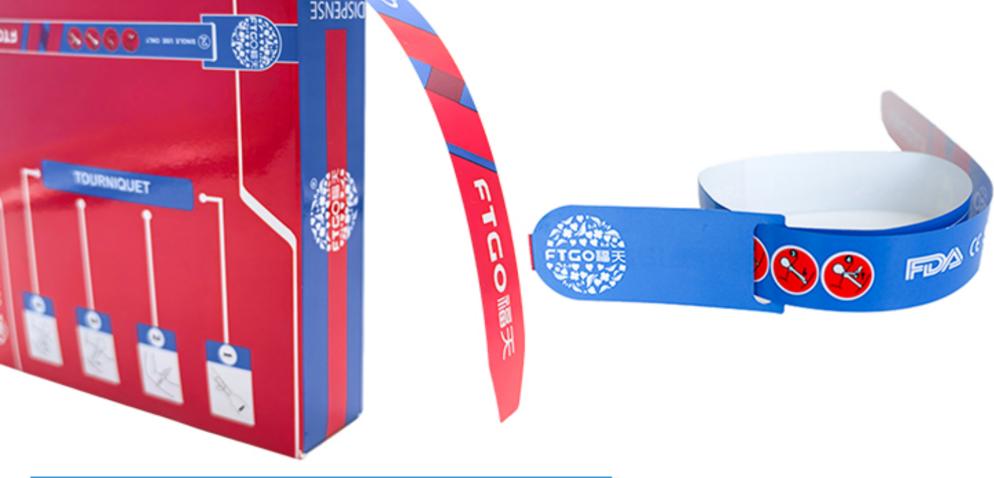

Two tourniquets can be connected to each other to accommodate patients with larger arms, thus eliminating the need for different equipment.

04 SAFE

100% latex-free and can be easily removed with one hand, thus minimizing contact. It complies with mandatory health and environmental protection stan-

EFFECTIVELY SOLVE THE PROBLEM OF CROSS-INFECTION FOR YOUR HEALTH "PROTECT AND ESCORT"

Disposable environmental protection

High-quality 100% latex-free material

This disposable tourniquet is made of a highly flexible polyester material that is durable and resistant to tearing.

Single-use design

Adhere to the "single-use" principle and comply with medical and health care requirements

Adhesive structure

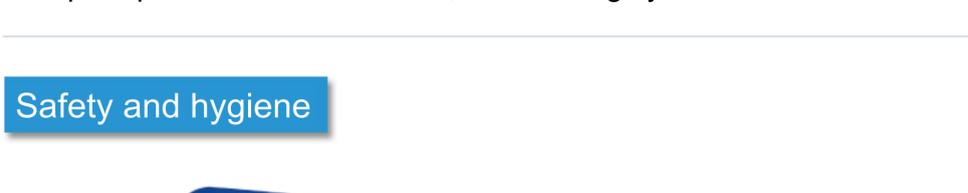

Fixed boundary, efficient disassembly

Customizable content

It supports OEM/ODM to add the name of the organization, operation prompts or other information, which is highly convenient

Safety and hygiene

Single-use to avoid the risk of cross-transmission of pathogens
