

FTGO Disposable Tourniquet

Safe & Reliable for Clinical Use

Latex-Free, Skin-Friendly Design for Blood Collection & Emergency Scenarios

"Inquire About Customization" | "Request Sample"

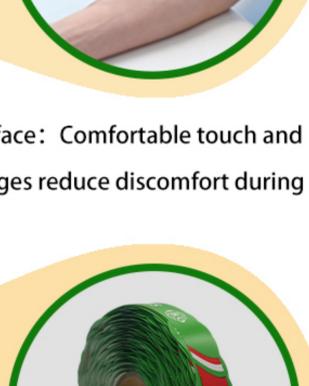

PRODUCT OVERVIEW

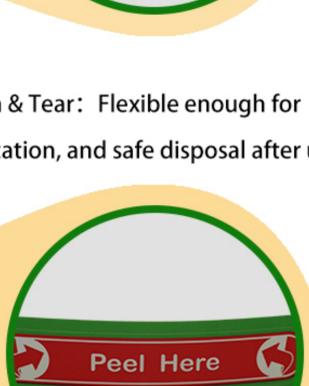

The disposable tourniquet is designed for daily clinical blood collection and emergency use. It adopts latex-free materials to help reduce irritation and improve user comfort. The product offers stable viscosity, smooth texture and consistent breaking strength, which assists healthcare workers completing venipuncture procedures efficiently.

Key Features

- 

Latex-Free & Skin-Friendly: Made of 100% transparent latex material, suitable for a wider range of users.
- 

Uniform Viscosity: Provides stable viscosity to support accurate venous positioning.
- 

Smooth Surface: Comfortable touch and clean cut edges reduce discomfort during use.
- 

Clean & Hygiene: Single-use structure helps reduce cross-contamination risks.
- 

Easy Stretch & Tear: Flexible enough for quick application, and safe disposal after use.
- 

Customizable Options: Support printing logos, size customization, color customization and packaging customization for distributors.

Technical Parameters

Products Type	Disposable Tourniquet
Material	100% Latex Free Material
Color	Green or Customizable
Surface	Smooth
Usage	Single use
Specification	200pcs/box 4600pcs/carton 8Kg/carton
Size	558*30mm 【Customizable size】
Carton size	L*W*H44.5cm*27cm*25cm

Custom Services
